King David is a unique environment, one in which I am able to excel in pursuing my individual identity while still connecting with my Jewish and Canadian heritage.

Dahlia James, Grade 12

I really like it here at King David High School. Everyone is so nice and they have helped me to feel welcome here. I've already learned quite a lot from the teachers; they are very nice and helpful. I like how the school is small and all the kids are very close.

Ben Katz, Grade 8

I am very happy at King David and I know that my friends and classmates are too. The school is so warm and welcoming to everyone and I believe King David is a second home to my whole grade and myself.

Nicole Isserow, Grade 8
